

# CARIPUR LUX

## High-Volume Purification System

- › Rated for between 20 and 30 GPM (91 – 136 LPM) at 55 PSI \*
- › Internal minicomputer operation
- › Binary Star water alert technology
- › Single point power connection, which includes solar connection
- › 10-Micron replaceable external bag filter for input water
- › 0.02-Micron ultrafiltration membranes internally
- › External long-life bacteriostatic carbon block filter on output
- › Wireless and Bluetooth communication
- › 304 Stainless steel or polypropylene copolymer case
- › IoT and Bluetooth compatibility
- › Automated system backflush with deep clean cycle.
- › Android/IOS app accessible
- › Size: 152 cm x 35 cm x 30 cm approx.
- › Water flow monitoring sensor
- › Water quality monitoring sensor
- › Water pressure monitoring sensor
- › Remote monitoring capable

# FEATURES

- > Purified water at every tap
- > Chlorine removal for great tasting water
- > Hardness removal
- > Microbe removal
- > Chemical removal
- > Pharmaceutical removal
- > Sediment removal
- > No pressure loss
- > Self-cleaning
- > Real-time water quality reporting
- > Detection and notification of harmful elements in your water

## ATTENTION

Bondurant rainwater systems are intended for potable water applications. Replacement and cleaning instructions for the external filters should be followed exactly to avoid producing unsuitable drinking water.

Bondurant product specifications in U.S. customary units and metric are approximate and are provided for reference only. For precise measurements, please contact Bondurant Support. Bondurant reserves the right to change or modify product design, construction, specifications, or materials without prior notice and without incurring any obligation to make such changes and modifications on Bondurant products previously or subsequently sold.
