

## SMART Ice making Machine (CWTI2)

Ice Vending Machine, and Ice making machines are indoor/outdoor units which can automatically bag ice in 10lb and 15lb sealed bag, and dispense 20lb, 30lb and 40lb bulk ice. This a cashless system and has cellular communications for remote monitoring.

### FEATURES AND PARAMETERS

Item	900KG model
Voltage	3phase AC 380V 50Hz/3phase AC 220V 60Hz
Total Power	5.8KW
Rated Current	380V/15.3A 220V/26.4A
24 hours capacity	900KG/20°C
Ice cube size	22mm×22mm×22mm
Ice mold cell number	1080
Compressor power	6P
Refrigerant	R404a
Ice making type	Circulation spray
Cooling type	Fan cooling
Ice tank capacity	150L
Source water	Municipal water
Source water pressure	>0.2MPa
Source water flow rate	>500L/H
Circulating tank refill rate	>5L/min
Compressor power	1.1KW
Air compressor capacity	≥6.2M <sup>3</sup> /H
Air compressor Maximum working pressure	0.8MPa
Air tank capacity	30L
Ice selling way	bag ice+bulk ice
Price method	Unit price×Weight
Payment method	Credit card
Ice bag dimension	1-7KG 300mm×750mm
Bag type	Break even roll bag
Bag QTY per roll	300mm×750mm/200 pcs
Inlet water/Drange	G1/2 male thread
Machine dimension	W170cm×D135cm×H220cm
